DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 8, 11-24, drawn to a cartridge device for analyzing blood.

Group II, claim(s) 25-26 and 28, drawn to a cartridge device for analyzing blood.

Group III, claim(s) 29-30, drawn to a method for analyzing blood.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I has the special technical feature of a plug or jack portion in a cartridge for receiving a plug or jack in the cell of the cartridge. Group II has the special technical feature of electrodes of high electrical conductivity and resistance against oxidation in a cartridge with no plug or jack portion. Group III has the special technical feature of comparing measured electrical impedance values to a predetermined threshold range with no requirement of a cartridge having a plug or jack portion or oxidation-resistant electrodes to perform the method.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
